

Fifty for \$5,000

In spite of the fact that many stocks have had a radical rise, it is possible to discriminate and invest in good securities, which you may buy on a basis of liberal and well-assured income return. Our Investment Department has just made a selection of five dividend paying stocks, on which you may obtain an average return of 5 1/4%.

We think that these stocks are suitable for the investment of the average man and that they have excellent chances of appreciation. You can buy 50 shares, 10 of each stock, for \$5,000. The Partial Payment Plan will permit you to buy them with your income.
